

WORK CERTIFICATE

30.11.2003

Name: Timo Juhani RINNASTO

Date of birth: 060768

Time of employment: Vaasa 01.02.1999 – 30.11.2003

Job description: Timo has worked as a Chief Design Engineer in the Engineering Services department. His working tasks have been:

- Steel structure design
- Coordinating steel structure design with consultants
- Coordinating steel structure production for work shops
- Acting as a steel structure expert

Timo has in his work used the following computer applications:

- X-Steel, StaadPro, AutoCad

His responsibility area has been:

- Power plant steel structures

Timo has been responsible for the design and production of steel structures, which has included the manufacturing of work shops, and standards required for the design. He has also acted as an expert in the annual agreement discussions between Wärtsilä Finland Oy and consultants.

Timo is dedicated to his assignments and works independently and conscientiously.

Reason for ending employment:

Wärtsilä Finland Oy and Citec Engineering Oy Ab have signed an engineering partnership agreement concerning the transferring of engineering functions at Wärtsilä / Power Plants to Citec. According to this agreement the employees are transferred to Citec as old employees.
